

FLOOD HAZARD INFORMATION

NOTES TO USERS

For information and questions about this map or available products associated with this Flood Risk Map, please call the FEMA Regional Service Center at 1-217-547-4402.

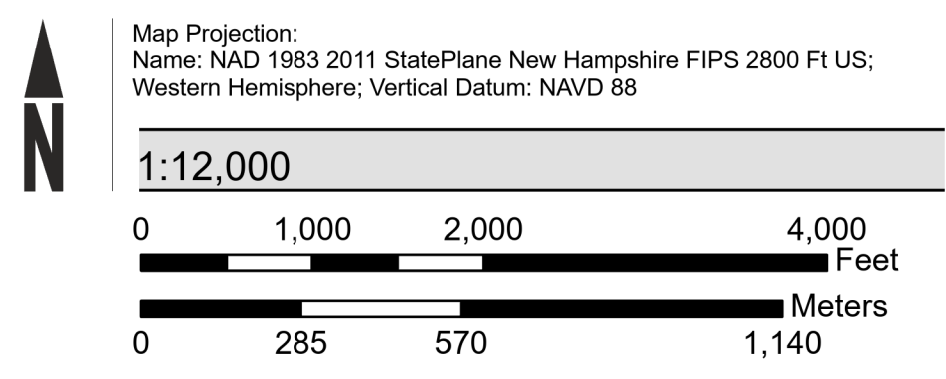

The information on this map is for informational purposes only and is not subject to regulations. The information represents the Flood Risk products and is intended for use in mitigation and planning.

Base map information shown on this FIRM was provided in digital format by the U.S. Geological Survey (USGS). This information was derived from digital orthophotography at a 2-foot resolution from photography dated 2010.

The CSLF dataset identifies changes in the Special Flood Hazard Area (SFHA) and floodway boundary changes since the previous FIRM was developed. These datasets quantify land area increases and decreases to the SFHA and floodway, as well as areas where the flood zone designation has changed (e.g., Zone A to AE, AE to VE, shaded Zone X protected by levee to AE for de-accredited levees).

Shaded Zone X floodplains are not displayed on this map for purposes of clarity and readability. Please refer to the regulatory FIRM for these areas.
