To the members of the Temple Zoning Board,

My name is Mike Flynn, I moved my family here last year after falling in love with our new hometown during a brief visit earlier in 2019. We live at 112 General Miller and simply couldn't be happier with our decision to make Temple our home. We love the character of the town and all the people we've met, and we want to help ensure that we preserve that character.

Ben's Sugar Shack is an important part of that character. We enjoyed Ben's maple syrup before we even made our move to Temple, at our home back in Georgia over a thousand miles away! Allowing Ben's to build their new facility at the 101/45 intersection would have a positive effect on both the character of the town and our economy. I hope that you will promptly grant them whatever approvals they need to make this happen. If we do not support the growth of our local businesses, our town will slowly lose them to other towns. That character that we love and want to preserve will be lost with them, and eventually the town will shrink to the point it can no longer support itself. Please allow Ben's to proceed. It is the right decision for Temple and its residents.

Sincerely,

Mike Flynn
