

September 28, 2020

To: Temple NH Zoning Board of Adjustment  
423 NH Route 45  
PO Box 191  
Temple, NH 03084

To whom it may concern:

As recent residents to Temple who love living in this historic part of the world, we wanted to take the time to express our support for the proposal for Ben's Sugar Shack to expand and develop into a new building. We see some great benefits to the Town of Temple including:

- Opportunity to create employment in our local town providing a positive impact to the very people in our town and their families.
- Supporting local businesses is critical for community collaboration and growth, further supporting the growth of Temple.
- As residents of 56 Webster HWY and from talking to Ben, he has done tremendous research and preparation for this project to ensure it would not be disruptive to the town. This includes DOT approval for the potential traffic and driveway, approval for the septic needs, a water study conducted to ensure the land can accommodate this expansion. This also directly removes traffic of heavy vehicles from back and forth to the current location of the sugar shack which bypasses our house and reduces noise.
- Ben has been a staple in the community and continues to support the Town of Temple with both his business and his own personal dedication. Ben has significant local support for this expansion by Temple residents and taxpayers.

Lastly as business people we appreciate the rarity of someone like Ben, while Ben is growing his own business in the town his first thought is how can I make Temple better, how can we provide a positive impact and opportunities to the people who live in Temple directly. This balance of a business mind and community acumen is credit to Ben and something I believe the town should be proud of. I appreciate your time and consideration on this matter.

Sincerely,

Sally and Simon Le Comte

56 Wester HWY, Temple NH

A Temple resident and taxpayer.
