Speaking as an abutter, not a board member:

I was not able to be present for the entire hearing last night, but I am very surprised to hear that the case has apparently been decided in favor of Martin.

There are clearly some significant issues that have not been addressed. For example, the claim that my house is now somehow 600 feet away instead of 500 feet is not making sense. We have documented evidence that weddings are held outside of the barn in locations much closer to my property. I was told no evidence was provided to 1) show a 600 ft measurement or 2) to address the fact that the entire property is part of the event venue.

This case seems to be far more complex than a single few hour hearing could have reasonably addressed.
