Hi Everyone!

I attended the ZBA hearing last night via Zoom. At the time of the meeting I raised my hand and was not recognized. I also messaged the Zoom coordinator (Bill) and he did not respond.

I would like this added to the (DEC 1) notes immediately and to be reviewed and approved by or before the next meeting.

"During the summarization from Chairman John Kieley he made reference to the proposed building and compared it to a 7-Eleven. The chairman asked a question in reference to the characteristics and use of the building and continued to compare the building to a 7-Eleven. (2 Times) After the 3rd reference Attorney Tom Hanna objected to the inappropriate comment made from John Kieley."

This is what was approved in the minutes>

Steve Pernaw spoke first on the two previously submitted traffic documents. He discussed the road widths, speed limits, traffic volume data etc. He also answered questions from board members and attorney Little. He also noted he uses the Highway Capacity Manual which the DOT recognizes and approves. Attorney Hanna commented that the retail store will be under 3000 feet and the products sold will be mostly maple product related and in no way is similar to a 711 type store as it had been previously compared to.

I think this is a crucial part to be displayed in the minutes and the original summary in red is not clear enough. Please confirm you have received and circulated this email.

Thank you,

Emily Sliviak

Hello Emily,

I have received your request and have forwarded it to the ZBA members.

Carole
